Church Details

The following are the details which the contracting church should be aware of and fully agree to in order to operate a *Freedom Health Ministries* program.

Regarding cancelations and the return of funds in the unlikely event the evangelist cancels for unforeseen reasons (change of employment, major illness, etc.), any funds that have been pre-paid by the church will be returned. In the event that the program is canceled by the church and an alternate program cannot be scheduled elsewhere, the conference/church agrees to pay a fee according to the following specifications. If cancelled before six months from the start of the program half of the full program fee will be charged. If cancelled within six months of start of the program the full program fee will be charged.

Additional causes for program cancellation include the contracting church diverging from the Bible or Seventh-day Adventist world church policy and fundamental beliefs, by diverging from the world church policy regarding ordination, diverging from the Bible's teachings regarding male elders. The church also agrees to not employ the use of Rock and Roll or dance beat style music, so as to keep in harmony with the Seventh-day Adventist church's official position on music. Any major church divisions within the local contracting church before or during a program are also grounds for program cancellation since *Freedom Health Ministries* does not want to bring new persons into confusion and fighting.

By signing the Freedom Health Ministries program contract, the contracting church promises to adhere to the above policies. If there are any questions or there is the need for more clarity please do not hesitate to contact the freedom health ministries staff.

Thank you and God Bless!
